Draw this score chart on the board and divide group into four teams.

Each team should receive a scoring sheet, one green card and one red card, and a rules sheet.

First assignment is to have the four teams choose a team name.

Rounds 1-4 are conducted with discussions only within the individual teams.

For Rounds 5-8 one representative from each team is sent to a negotiating room to discuss options and strategies.

Prior to calling for cards allow enough time for discussion between the negotiator and his/her team.

Facilitator will call for cards on the count of three at which time each group must hold up one card.

There can be no hesitation holding up cards on three - allowing one group to see what color card another group has held up.

Facilitator documents each round's score on the leader board based on the pairing of cards held up as listed on the scoring sheet.
