

WHO SHOULD SURVIVE

The following 15 persons are in an atomic bomb shelter. An atomic attack has occurred. These 15 persons are the only humans left alive on earth. It will take two weeks for the external radiation level to drop to a safe survival level. The food in the shelter can sustain at the minimal level, seven persons for two weeks. In brief, only seven persons can minimally survive. The group consensus must be unanimous in the decision of WHO SHOULD SURVIVE
